To All my Friends and Supporters, the problem for me now is pretty though. I'm deeply concerned not just for the issue I'm facing and most of you already know about, but also because I don't have resources anymore to fight this injustice. I badly need to be able to hire experts, when needed, or pay my attorneys fees, documents fees, and so on when the new appeal will start. I hope to not bother you, but I need your collaboration to face this ordeal. Otherwise I don't want to forced to give up just for financial reasons. Any donation will be very useful.

Big Hugs, Raffaele
